

Demons Have Great Power

1. Demons can indwell an unbeliever (an unsaved person) and in doing so, impute an illness – when the demon leaves, the illness is instantaneously cured. This would appear to be to be an act of healing – a satanic plot to keep people away from a true knowledge of God and His fantastic plan.
2. A believer can be demon-influenced – an unbeliever can be demon-indwelt. A believer cannot be demon-possessed but can be *EVIL* possessed.
3. Before [Genesis 6](#) – angels could take a male form, and co-habit with earthly women. This is the reason for the super race – or giants – ½ angel and ½ human – all of this is presented in [Genesis 6](#).
4. When this ability was taken away, only 2 things were left for demons (fallen angels) to be able to influence humans:
 - 1) Demon possession for the lost, and...
 - 2) Demon influence for the saved.
5. God shut down the sex activity of fallen angels on earth by putting these demons in a place called *Tartarus*.
6. Here the *dunamis* demon is a demon with a special power. This would include the ἐγγασθρομυθος demon, which controls the vocal cords. People do speak in tongues by demon possession. These are lost people. When frustrated, apostate, non-Biblical believers try to speak in tongues, they have a much harder time and it will always be “blabbering.” There is nothing legitimate about a lost person being indwelt by the vocal cord demon and speaking. It is illegitimate, and it’s satanically controlled.
7. The *dunamis* type demons have special powers and abilities.
8. Many people are under the influence of this type of demon.
