

Ephesians 4:6 (Exegetical)

1. Every person who has been born again has the same Father, has the same Savior, and has entered into a royal association the very same way – the dry Baptism of the Holy Spirit. (Faith alone in Christ alone.)
2. Even though every saved person is a member of God's family, all do not have the same function and all do not achieve the same stage of Christian development.
3. Spiritual gifts are different; therefore various assignments are made to different members of the body of Christ.
4. We are members of the same team but have different responsibilities.
