

## Ephesians 5:10 – Exegetical Study

The more of God's Word we learn, the more we can put anything in life to a test. Spiritual food in the soul is the means by which the value of anything in life is evaluated. No matter how intelligent a person is, unless he has been taught God's Word, he cannot see from a divine perspective (*"well pleasing"*). What is the content of the believer's mind? Is it well pleasing to the Lord? There must be consistent intake of Spiritual food to be acceptable.
