

# FURNACE OF DIVINE JUDGMENT

- I. No nation can survive without national disasters that remove the scum, and give opportunity for that nation to be perpetuated in history.
- II. National disaster is designed to remove the impurities of a population where the nation is going to be perpetuated as a client nation.
- III. The furnace of divine judgment is constantly judging nations. The heat of the furnace refines the bronze, removing the impurities.
- IV. [Revelation 1:15](#) uses the word *puro* (πεπυρωμένης – *refined – having been fired*) in the *kaminos* (καμίνω – *furnace*).
