

The Great and Powerful Weapon of Prayer

[Ephesians 1:15, 16](#)

1. Prayer is only effective when the believer is using it with the virtue he has developed while residing inside the Divine Power Sphere.
2. Power in Prayer is related to God's Divine Plan, which is for the believer to understand the importance of not Grieving or Quenching the Holy Spirit, by persistent living in Harmony with the Lord Jesus Christ. When a person is out of fellowship with the Lord, he/she will be under the control of Satanic thinking, which is grieving the Holy Spirit. If the person stays out of harmony with the Lord, he will be quenching the Holy Spirit – which is satanic control.
3. So much of the Biblical concept of prayer is related to the believer's residence inside this magnificent sphere of power which is Divine.
4. In that sphere of power, two things will be happening simultaneously:
 - (1) The Believer is functioning under Prayer.
 - (2) Developing the virtues that are necessary for effectiveness in the Royal Family of God. Prayer and virtue develop simultaneously. Prayer life toward God also relates to human life toward people.
5. The effectiveness of our Lord's Prayer life during the incarnation was based on the fact of impeccability, which is the humanity of Christ residing inside that powerful sphere of Influence.
6. It's inevitable that compliance with the divine mandates inside the Divine Sphere is directly related to all forms of Christian service and activity. [1 John 3:22](#) – *“Furthermore, whatever we ask, we receive from Him because we keep his mandates and keep doing the things pleasing in His sight.”*

The Great and Powerful Weapon of Prayer (Continued)

7. The power of prevailing prayer is based on a virtue called *confidence* – a virtue directed toward God. This is *social life* with God.
8. Prayer has neither meaning nor power unless its use is pleasing to God; it must be accompanied by virtue. Virtue in this case is confidence toward God, not toward people.
9. Prayer can only be pleasing to God when the believer-priest uses this powerful weapon inside God's sphere of power.
10. There is a direct relationship between all Christian service and the modus vivendi of the Divine Dynasphere. Christian service in itself is meaningless, only becoming meaningful when it results from momentum inside God's Sphere of Power. Glorification comes to the Lord Jesus Christ when the believer is residing and functioning within the power provided him.
11. Every principle of effective prayer is related to the believer remaining consistently inside God's furnished Divine provisions.
12. Effective prayer warriors are those who have virtue, which is confidence toward the Heavenly Father, and unconditional love toward people.
13. Any prayer offered outside God's power sphere cannot be answered except for a restoration prayer we call restoration to fellowship (RTF).
14. Prayer inside God's power sphere will be answered with either *yes*, *no* or *wait*.
15. The key to prayer is found in a relationship to God's design, plan and specific mandates. Each believer is to study and evaluate life in the light of the Royal Family objectives of the Church age.
