

Love

The Greeks defined Love in 4 categories:

- I. *Agape* love is unconditional love. It is love by “choice” even if you are not pleased. A good example is “God loves us with our faults.”
- II. *Philos* love is virtuous love, guided by our (SOULS) likes or our healthy or unhealthy needs and desires.
- III. *Storge* is the word for family love and the physical show of “affection” and the need for physical touch. Sometimes the love between exceptional friends.
- IV. *Eros* is the physical “sexual” desire, intimacy. It is the root word for erotic and eroticism.
