

## Proper Soul Preparation:

We're here to receive spiritual food into our souls. No preparation exceeds the importance of *soul preparation*. Our time in Bible study is always so brief; so we must get every ounce of spiritual nourishment, which *requires* being in harmony with our Lord and Savior Jesus Christ.

What's needed is an attitude in the congregation of impeccable manners, with no distractions, talking or unnecessary movement, which allows the perceptive believer to learn properly, to listen attentively and carefully while the Word of God is being proclaimed.
